RE: Proglaze- Green Building Product Information (LEED® Information)

Tremco, as an organization, is committed to quality, responsive to both internal and external customers, our employees, our community and environment, and we will treat all with respect and good stewardship.

Tremco Inc. certifies the following information for Proglaze

Regional Materials:

Proglaze is manufactured in Cleveland, Ohio.

No single extracted material is used to produce the majority of this product. Additionally, all raw materials come from one of several sources which in turn come from one of several raw material feed stocks. As such, point source for the raw materials cannot be determined.

Recycled Content Information:

Recycled content for Proglaze is not available, and for the purposes of LEED reporting should be assumed to be zero.

VOC Content Information:

Proglaze has a VOC content of 36g/l equaling 3.5% by weight as applied/mixed.

Note: VOC content values are as reported for the highest VOC content color for all Proglaze colors. Other colors may have a lower VOC content reported on their MSDS.

Additional Information:

Should you have any questions or require additional information, please do not hesitate to contact Technical Services or your local Tremco Field Representative.

Sincerely,

A handwritten signature in blue ink, appearing to read "Amy Woodard".
