

The Terno Solo Vetro 80 is a sliding glass door system for single sliding of glass doors and sliding partitions with fixed glass panels. Made for glass doors (8 to 12.7 mm (5/16 to 1/2 in) thick, weighing up to 80 kg (176 lb) each. Ideal solution for commercial and residential applications, meeting rooms, office partitions, and transaction counters in public spaces.

WEBKIT no.	Number of Doors	Overall Length	Door Movement	Track Type
WEBKIT1220355	1	2000 mm (78 in)	Single Sliding	Standard
WEBKIT1220356	2	4000 mm (157 in)	Biparting Synchro	Standard
WEBKIT1220357	1	2000 mm (78 in)	Single Sliding	Standard & Fixed Glass
WEBKIT1220358	2	4000 mm (157 in)	Biparting Synchro	Standard & Fixed Glass

Further information

Advantages and benefits

- Hardware sets include soft self-closing mechanisms with anti-derail devices
- Concealed dry-glazing clamping shoe requires no drilling of the glass
- Flex-Mount upper track can be ceiling or wall mounted, and options for fixed glass panels
- Clip-on fascia to cover clamping shoes and track
- Rubber press-on gaskets for fixed glass panels, no adhesive required
- Available Synchro hardware for biparting applications with a durable pulley cable system linking two doors to open and close together in opposite directions
- Works with **VETRO FISSO** system to build stationary glass partitions in a variety of configurations from L-Shape, T-Shape and Straight applications
